MISTY NOTES AND DEW DROP RHYTHMS

Melodies dancing with archaic soundscapes, audio canvases and friendship piercings.

Overcast atmospheric words spoken by a lounge lizard who straightens his tie, plucks a silver harp and sips a passing breeze.

There's a bridge of illusions that goes from the kneeling city to the enlightened palace.

It knows the difference between right and wrong.

Below the bridge the path of no judgment leads down an embankment to the lake of reality.

In the distance the foothills of satisfaction sit on the feet of Achievement Mountain.

Which casts a shadow of a question.

BUBBLE WRAP

The future of noise with indemnified technology and crime stopper instructions.

Take this futuristic drug called a family pill, wait 15 minutes and then everyone u meet for the next 24 hours will feel like a beloved family member...

Guided by art.

Governed by kindness.

Inspired to do good.

ANIMAL I AM

A description ...

Right hand
is a paw

left is a claw

big toes r half the size
of an elephant's nose

one eye's a rat's

the other's a cat's

fangs for teeth
with fur like a donkey

i can swing thru the trees
like baboon or a monkey

A BENTLEY OR A BEETLE? IT'S TOO FAR AWAY TO SAY FOR SURE

I was on the top a very high radio tower the other day, simply went for a climb, and while I was up there I saw an old man in the park doing yoga, he was in a downward dog position. Then I realized he was having a heart attack and had slumped over into that yoga position... then he fell onto his back and his shadow jumped out of his body and started running around the park making grass angels every few feet... he made about five of them and then jumped back into his body, and then got up and rode away on his bicycle.
